PROFESSIONAL SUMMARY

Full Stack Developer and BTech Computer Science student (2023–2027) with hands-on experience building production-grade web applications. Delivered three end-to-end projects spanning role-based authentication, REST API design, and relational/NoSQL database modeling. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, and Prisma. Actively seeking a software engineering internship for 2026 where I can contribute to real-world product development.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, PHP
Frontend: React.js, Next.js, HTML, CSS
Backend: Node.js, Express.js, Hono
Databases: MongoDB, PostgreSQL
Tools & ORM: Prisma, Mongoose, Git, GitHub, VS Code
Core Concepts: Data Structures & Algorithms, REST APIs, Authentication, Database Design, CRUD Operations

PROJECTS

Social Media Web Application	React.js · Node.js · Express.js · MongoDB
- Built a full-stack social media platform with auth, profile management, posts, likes, and comments, supporting 5+ concurrent user flows. - Designed and exposed 15+ REST API endpoints with input validation, structured routing, and error handling. - Modeled scalable MongoDB schemas reducing query complexity and enabling efficient data retrieval.	
College Outpass Management System	React.js · Node.js · Express.js · MongoDB
- Digitized a manual leave-approval process, cutting approval turnaround from days to under an hour for faculty workflows. - Implemented role-based access control (student / faculty / admin) with request submission, approval/rejection, and full status history. - Built a responsive dashboard reducing administrative overhead by eliminating paper-based tracking.	
Student Placement Preparation Portal	Next.js · Node.js · PostgreSQL · Prisma
- Developed a placement-prep hub used by peers to track coding practice, aptitude resources, and progress milestones. - Designed relational PostgreSQL schemas with Prisma ORM, enabling typed queries and easy schema migrations. - Built REST APIs powering dashboards with real-time activity tracking across multiple preparation categories.	

EXPERIENCE

Event Web Application — Frontend Developer (Team Project)	2024
- Contributed reusable React UI components and integrated backend APIs for a live event management application. - Collaborated with a team using Git branching workflows; participated in code review, debugging, and QA cycles. - Improved component re-usability, reducing duplicate code by ~30% across the project.	

EDUCATION

BTech in Computer Science and Engineering	2023 – 2027 (2nd Year)
Rajiv Gandhi University of Knowledge Technologies, Srikakulam	
Pre-University Course (PUC) — CGPA: 9.82 / 10	2022 – 2024
Rajiv Gandhi University of Knowledge Technologies, Srikakulam
